

Home Inspections

Before you buy a home, it is very important that you have the home inspected by a professional home inspector. This is usually written into your offer to purchase a home.

Before you even make an offer to purchase a home, there are many things you should consider. Freddie Mac has put together a Consumer's Home Inspection Kit that discusses many things about what you should look for when purchasing a home.

See [Consumer's Home Inspection Kit](#)

Of course, this Consumer's Home Inspection Kit does not replace a professional home inspection which should be done before you buy a home.
