Message from the Executive Director

Welcome to Indiana Legal Services.

Our 120 staff members serve nearly 9000 Hoosiers each year from our eight offices spread across the state. We represent low-income Hoosiers in many types of civil matters, including family law, housing, consumer problems, and more. Our specialized legal centers address not only these issues, but also language rights, immigration, community development, tax disputes, rights of military veterans and their families, problems of senior citizens, and rights of migrant farmworkers.

We strive to give our clients the highest quality legal services. We also look for ways to use the legal system to change rules and practices that disadvantage Indiana's low-income citizens.

If you need legal help, call our intake line, 844-243-8570 from 10-2 Eastern Monday through Friday (9-1 Central), or use the on-line intake form you can find on this website.

Jon Laramore

Executive Director
